CalWORKs Homeless Assistance (HA) Program

The CalWORKs Homeless Assistance (HA) Program was established to help CalWORKs families meet the costs of securing permanent housing. HA includes temporary HA, which helps families pay the costs of temporary shelter, and permanent HA, which helps families pay a security deposit for permanent housing or prevent eviction. Homeless CalWORKs families may receive either temporary or permanent HA, or both once in a 12-month period, with certain exceptions.

Program Overview

- The CalWORKs HA program serves eligible CalWORKs applicants or recipients who are homeless or at risk of homelessness.
- Types of Homeless Assistance
 - Temporary Homeless Assistance provides a payment of \$85 per day for a family of four or fewer, and an additional \$15 for each additional family member, not to exceed \$145 per day. Temporary HA is provided for up to 16 consecutive calendar days once in a 12-month period.
 - Permanent Homeless Assistance helps families secure housing by providing security deposit costs, including last month's rent, or helps families maintain housing by providing up to two months of rent arrearages. A permanent HA payment may not exceed two times the total rent amount and the monthly rent cannot exceed 80 percent of the total monthly household income and must be paid to a landlord in the business of renting property.
- CalWORKs applicants and recipients must have less than \$100 in liquid resources (cash on hand) and must be homeless or at risk of homelessness in order to qualify for HA benefits.
- Exceptions
 - If the family meets the criteria for an exception, a family may receive a second HA payment within the 12-month period.
 - Exceptions include:
 - cases of domestic violence
 - medically verified physical or mental illness
 - a fire or other natural catastrophe beyond the family's control
